## PROFILE

---

As a data analyst with over one year of experience, I specialize in ETL and machine learning to transform data into meaningful business insights. I possess a strong understanding of warehousing techniques and can effectively convert data to drive improved business outcomes.

## PROFESSIONAL EXPERIENCE

---

### Start-Tech Academy, Gurugram

Aug 2022-Present

#### Data Analyst and curriculum Engineer

- I've created dashboards, delivered business solutions, and developed multiple machine learning projects focused on predictive analytics.
- Leveraged machine learning insights to drive informed decision-making within the company.
- Provided personalized guidance to professionals in data analytics through an engaging combination of interactive live sessions and hands-on training.

## FREELANCE WORK

### Budapest, Hungry

#### Data Analyst

Dec-2023

- Developed a sales analysis dashboard, offering insights into sales patterns and vital KPIs like P/L indicators.
- Applied machine learning for accurate sales forecasting, aiding in strategic decision-making.
- Conducted break-even analysis, guiding the owner on achieving profitability.
- Designed an investment strategy for the owner to increase the profit by around 10 percent.

## SKILLS

---

<b>Programming Languages</b>	Python, R, Java, SQL, C
<b>Analytics Tools</b>	Excel, Tableau, PowerBI, MySQL, Pentaho.
<b>Technical Skills</b>	Data Analysis, ETL, Data Mining, Machine Learning, Deep Learning, NLP
<b>Big Data Tools</b>	Hadoop, Hive
<b>IDE</b>	Jupyter, Colab, VSCode, Eclipse.

## EDUCATION

---

### INDIRA GANDHI NATIONAL OPEN UNIVERSITY

*Master of Computer Applications*

New Delhi

2022-2024

### JAMIA MILLIA ISLAMIA

*Master of Science, Electronics*

New Delhi

2020-2022

## PERSONAL PROJECTS

---

### Laptop Price Predictor

Jan-2024

- Conducted in-depth analysis on raw laptop price data, uncovering patterns, trends, and insights to understand the factors influencing laptop prices in the market.
- Implemented feature engineering strategies to enhance the predictive power of the machine learning model.
- Developed a user-friendly website to host the trained model, allowing users to input laptop specifications and receive predictions on whether the listed price is justified or not.

## Sales Analysis

**JUL-2023**

- Utilized SQL to prepare the data after doing requirement analysis and then used business understanding to identify key matrices and eventually create a Bower Bi dashboard.
- This dashboard was created to get an overview of the last 2 years' sales, which can be followed up with different charts and KPIs according to the business requirement.

## INTERNSHIPS

---

**Start-Tech Academy, Gurugram**

### Business Analyst and ML Intern

**Jun 2022-Aug-2022**

- Worked on different data analytics and ML projects, Analyzed, and evaluated market trends and customer feedback to identify and capitalize on new business opportunities.
- Developed a suite of advanced analytics tools that enabled the business to gain insights into customer behavior and trends.
